THIS IS A
PLACE FOR
LIMITLESS
POSSIBILITIES.

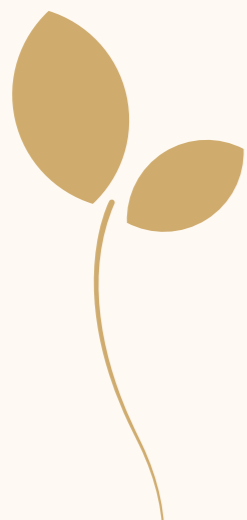

THIS IS
TAURIAN

“

Education is the power to think clearly, the power to act well in the world's work, and the power to appreciate life.

”

THIS IS WHERE YOU'LL FIND YOUR DYNAMIC EQUILIBRIUM

A State of Changing Balance In Nature

Dynamic equilibrium is a school credo that not many have heard of before, but it is authentically Taurian. Our philosophy of dynamic equilibrium and holistic learning balances collaboration and self-reflection, tradition and innovation, discipline and creativity, deliberation and velocity – with a liberal dose of wonder and joy.

We offer our students a social, spiritual, intellectual, and cultural experience that supports them as vigorously as it challenges them. After all, we are cultivating individuals who will lead families, institutions, and even nations.

Taurian is a place that embodies synergy. Here, all students have the freedom to be human— to make mistakes, to grow, to develop meaningful connections, and to foster valuable experience and skills for leading a fulfilling, successful life.

AMITH BAJLA

FOUNDER AND CHAIRMAN

Taurian World School started its odyssey in 2008 and has come a long way since then. Our progress has been accelerated by our singular focus on holistic education, a method that has helped impart quality education to mould young, diverse minds into high-functioning citizens of our country.

We provide ample opportunities to every student to bring about all-around growth and self-realisation. 100% results and a regular selection of our students in various prestigious institutions speaks volumes about the team efforts of the staff and students, along with the full cooperation of the parents. There are many more milestones to achieve ahead, which Taurian is marching towards and shall definitely reach the zenith in the coming years.

SHUCHI SHARMA

PRINCIPAL

Taurian is a centre for holistic education. And I mean it in the truest sense of the word. Traditional education breaks down academics into demarcated subjects, divorced from each other as if they're mere sum parts of a whole. Well, that depends on how you define whole. For me, the whole is a student's character, mindset, and discipline, not simply their knowledge.

That's why at Taurian, we deliver academic, artistic, and athletic learning in an interconnected, interoperable way. You can learn science while playing football. You can master music in science class. You can perfect chess while you're painting. There are no bounds to learning. We're holistic in that way.

KEATHI SHARMA

LEAD - LEARNING AND INNOVATIONS

At Taurian, education is a journey of discovery, where classrooms expand into the world for an immersive experience. Our philosophy bridges local essence with global perspectives, fostering critical thinking, creativity, and adaptability for a dynamic future.

Our Primary Years curriculum uses thematic pathways integrating national standards with global relevance, nurturing curiosity and cultural sensitivity. In the Middle Years, dynamic methods, expeditions, and vocational training promoted exploration. Senior Years emphasize real-world applications through internships and community projects, preparing students for life beyond school. We shape future-ready thinkers and leaders committed to making meaningful global contributions.

OUR VISION

We see a future where learning breaks free from traditional limits, setting every Taurian student on a unique path. We bring together nature's wisdom and the latest technology to shape bold thinkers and principled leaders who approach problems creatively. Our vision is to prepare them with the right tools and insights to face real-world challenges. By fostering compassionate, forward-thinking global citizens, we aim to make a lasting impact on tomorrow.

OUR MISSION

We're manifesting a future where learning finds its roots in nature and innovative thinking. To that end, we're empowering our students to become not only brilliant individuals but also changemakers—challenging conventions, crafting sustainable solutions, and cultivating empathy and clarity in an interconnected world.

Core Values

WHOLE-CHILD DEVELOPMENT

We nurture the growth of students across intellectual, emotional, and physical domains through experiential, inquiry-based learning.

CULTIVATING EMPATHY

We foster a culture of inclusion by empowering students to engage with diverse perspectives and build mutual respect.

LIMITLESS POTENTIAL

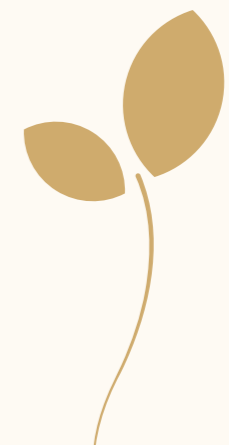

We encourage students to break boundaries and pursue excellence, cultivating a mindset of continuous improvement and innovation.

RESILIENCE & AGILITY

We equip students with the adaptability and resilience necessary to navigate and thrive in an ever-changing global landscape.

PURPOSE-DRIVEN IMPACT

We inspire students to collaborate and take purposeful action in solving real-world challenges and leave a lasting positive impact on society.

THIS IS HOW WE CULTIVATE THE JOY OF LEARNING

The Moral Beacons that Anchor Us

CULTURAL COMPETENCE

Valuing all community members is a key part of the Taurian way. Students engage in classes and activities that allow them to focus on developing a wider perspective of the world in which we live and of our Indian context. We allow our staff and students a high degree of freedom and personal expression, which can often challenge ideas, views and opinions. This allows for meaningful reflections that facilitate understanding others' cultures and learning experiences that celebrate our common humanity.

MINDFULNESS

Be it learning to befriend their inner critic, increase concentration and focus, jump back up from a perceived failure or overcome test anxiety, mindfulness can help students make sense of a complicated world. We hold regular mindfulness and wellness sessions to offer the essential grounding and daily insights that help students address their individual conflicts in a healthier way.

ENVIRONMENTAL CONSCIOUSNESS

At Taurian, nature has been intrinsic to the campus life since the school opened its doors in 2008. Our sweeping views of lush green grasslands are a constant reminder of both the fragility and beauty of our natural landscape. That's why environmental education is integrated into our academic programs to cultivate a generation of environmentally conscious leaders who will contribute to a more sustainable and well-cared-for world.

NATURE'S CLASSROOM

Nature is quite literally at our fingertips. On any afternoon, Horse hooves clomp along campus paths, cyclists whiz down our twisting trails, and outdoor classroom sessions run in the backdrop. The proximity to nature allows our students to see what they are learning manifest in a way no 3D video and technology can. It's a most natural way of learning, and it comes naturally to us at Taurian.

GLOBAL CITIZENSHIP

Here at Taurian, we embrace global-mindedness and strive to prepare our students for life in the global environment. We instill students with a strong sense of justice, respect, and fairness for other communities, individuals, and the environment. This consistent student-centred focus and global vision have led to a wonderfully impactful and diverse school community spread across various geographies.

ADAPTABILITY

Take a walk through Taurian's classrooms on any given day, and you'll see a wide range of activities taking place. Because of the variety of learning styles and student personalities, Taurian's faculty creates learning atmospheres to engage every student. With students exposed to various competencies, they grow accustomed to changing and pivoting their approach early on based on the situation. This way, they grow resilient by being adaptable.

SUSTAINABILITY AWARENESS

Our connection to the environment, through everyday example and academic education, teaches students to be good stewards of the earth. That's one reason why sustainable practices remain fully embedded in our daily operations—be it our waste-reduction programs or unique green spaces.

EMOTIONAL INTELLIGENCE

Taurian students are reflective and caring people who consider others' feelings and needs and act to make a positive difference. Misunderstandings and differences are thoughtfully approached by faculty, peers, and counsellors to find resolutions that provide learning opportunities and growth, especially where emotional intelligence is concerned.

THIS IS A PLACE TO THINK BIG

Researchers. Shapers. Changemakers.

In academics, we apply the philosophy of holistic learning through personal journeys and collaborative experiences.

Students grow to be adept at everything from lab experiments and computer coding, all the way to translating foreign language verses and dissecting philosophical principles.

We provide our students with the knowledge, tools, and validation that allow them to surprise themselves with their own achievements—something that helps them take on challenges previously unimagined.

We urge them out of the preconceived boundaries that they have built around themselves.

NUMERACY

Finding reason and meaning in numbers builds the right agility of mind, which is essential to tackling various life problems, be it at school, home, or work. At Taurian, we weave numeracy into all aptitudes, activities, and disciplines. No longer limited to just mathematics, students learn to apply the art of numbers to various contexts of life.

LITERACY

Language and the written word are the greatest human inventions. And we've designed a curriculum that empowers students to make the most of this gift and understand, use, evaluate and engage with written text and spoken words to participate in society, achieve success, and develop their potential and knowledge effectively.

The talented actor who became a top athlete.

The science whiz kid compelled to study philosophy.

The politically charged visual artist.

Our focus on character development and inspiring academic experience leads many graduates to pursue unique, cross-disciplinary vocations.

At the core of our pedagogy is a singular emphasis on building literacy and numeracy skills, proficiencies that we've identified as foundational toward academic, artistic, and athletic success, and community and societal progress.

LEARNING METHODOLOGY

Taurian World School offers a holistic education oriented to all aspects of human experience. A holistic education model denies that education stops with technical skill or professional success and that knowledge is intrinsically good.

We prefer breadth in place of specialisation, familiarising students with connected fields of understanding and preparing them to lead lives characterised by understanding, learning, freedom, and responsibility.

There's no bounded learning at Taurian. Social sciences, sciences, mathematics, and languages are not separate. Everything is blended into a unified curriculum that overlaps the domains of traditional subjects into one cohesive learning experience, just like life demands.

We deliver this consolidated learning approach via various pedagogical modes.

STEAM LEARNING

The great Leonardo Da Vinci famously said to build a complete mind, you must:

“Study the science of art. Study the art of science. Develop your senses — especially learn how to see. Realise that everything connects to everything else.”

That sense of experimentation and discovery, the kind that brings interdisciplinary learning to life, is something we see regularly in our teaching practices, learning spaces, course offerings, and after-school programming.

In a nutshell, you can design and assemble machines and trinkets in the 3D printer or improve your computer skills while teaching others how to code. Wear a hard hat and see how architects, contractors, and engineers build a new school building. Or, combine your love of photography and biology with a cyanotype experiment on our flora-intensive campus.

Like we said, *endless learning possibilities.*

EXPERIENTIAL OUTDOOR LEARNING

Most of life happens beyond the four walls. That's where learning should happen, too. Fortunately, we're blessed with an expansive, green campus that inherently serves as a classroom, thanks to the rich flora and fauna that graces Taurian's land.

From migratory birds to seasonal plants, students get to see their books come to reality in an enchanting progression of seasons, time, and life.

When your child engages in such learning, strong forces of cognitive and behavioural development are at play. Not only do these genuine experiences stick for life where memory is concerned, but they also form the foundations of understanding, reasoning, and intellect that will serve students well for the rest of their lives.

THIS IS WHERE YOUR IMAGINATION TAKES FLIGHT

Discover. Build. Create

Be it behind the easel or on the stage; art is what gives life to imagination and meaning to life. It's a medium to express yourself and a channel that shapes your understanding of the world.

From pottery and piano to poetry and pixel art, our instruction is diverse and never confined to four walls.

We take this profound responsibility seriously and offer students structured programs that inspire their creativity while refining both artistic vision and technical skills.

True art is derived from a contemplative experience of the world. Students immerse themselves in our campus and community, a beloved enclave where your child will find inspiration for a lifetime of artistic exploration.

THIS IS WHERE YOU'LL FEEL EMPOWERED

Be All In

An arrow slicing through silence, the crisp snap of a ball being sent across the boundaries, the clapping of horse hooves on our many shaded trails.

The whole campus gets fired up about sports, and there are celebrations, large and small.

The sounds, unmistakable. The experience, unforgettable.

It doesn't matter if you're a record-setter, a dedicated team player, or a top-scorer, if you're putting yourself before others, training hard, and having fun while doing it,

Teamwork, commitment and sportsmanship define Taurian's student-athletes. On courts, swim lanes, and fields, our student-athletes continue to develop their character and skill as they proudly wear our insignia and represent their school and team.

You're being a Taurian.

Taurian's Dance program is devoted to the development of a strong mind, body and spirit, as well as the creative expression found in the joy of movement.

Whether exploring dance for the first time or perfecting their technique, students cultivate artistry and skill through exposure to diverse dance styles, mentorship from seasoned artists, performance experiences, and innovative practices.

Ultimately, through this graceful art, your child gets to build self-confidence, curiosity, and an appreciation for diverse perspectives through collaborative performances.

Music encourages discipline, creativity, collaboration and the capacity to think differently. Of course, it plays an integral role in Taurian's holistic curriculum and provides students with a unique way to express themselves as individuals and as a collective.

The opportunities are rich, ranging from vocal training to instrument playing, all centred along the objective of cognitive, creative, and character development of our students.

Our visual arts program is here to get students thinking outside the box, encouraging creativity and explorations, while also helping them tackle problems and think on their feet.

The infrastructure and facilities offer a comfortable and safe way for students to step out of their comfort zones, hone their technique, and explore more media of expression.

THIS IS WHAT'S BETWEEN THE LINES

The rewarding byproducts of Holistic Learning

Art is the song of the spirit, and sport is the test of your body. But like everything else at Taurian, these two schools of discipline aren't treated differently.

After all, isn't there something inherently artistic about a perfectly executed free kick from 30 yards? Isn't the teamwork and coordination that goes into delivering the pitch-perfect symphony reminiscent of the thrill you get at a last-minute win?

When we Blur these lines at Taurian, students get to see the interdependencies of life. This naturally instils within them many essential secondary qualities that provide a strong character base for their personalities and behaviour.

COMMUNITY SERVICE

Apart from improving the cognitive and artistic facilities of our students, our arts and athletics also instil a sense of giving. We create servant-leaders who uphold the dignity of people and the worth of the natural world through acts of humble service. Opportunities for community service and volunteering are endless at Taurian.

GLOBAL EXCHANGE

Global exchange is a transformative experience for young people as they experience new cultures and demonstrate skills in real-world applications. Taurian offers travel programs every year designed to supplement classroom curriculum and contribute to identity formation, community building, and intercultural awareness.

INCLUSIVITY

At our school, inclusion isn't just a value—it's the spirit that breathes life into everything we do. We embrace every child, regardless of their unique needs, abilities, or challenges, fostering a community where difference is celebrated and every student is seen for who they truly are. Here, the journey of learning is never one-size-fits-all.

LEADERSHIP

At Taurian, Leadership isn't just an isolated aspect of the curriculum; it's the thread that ties all our programming together, be it leading a sports team, band, or quiz team, ensuring that every student is empowered to helm with confidence and integrity. Through a variety of programs, including our community service initiatives, our students are encouraged to develop essential leadership skills such as collaboration, communication, and critical thinking.

FARM-TO-TABLE FOOD

In an age where fresh, unprocessed food is increasingly rare, our young Taurians are fortunate to enjoy truly organic, wholesome meals that are genuinely healthy. Also, through our outdoor organic farming program, students gain a deeper appreciation of the journey food takes from 'farm to table,' learning firsthand the care and effort involved in growing and harvesting the food they eat.

THIS IS YOUR HOME AWAY FROM HOME

Interactions. Bonds. Life.

Life at Taurian is never dull.

At our school, we strive to create a “home away from home” for all our students. Here, warmth, care, and a sense of belonging are at the heart of our environment.

We understand that school is more than just a place to learn—it’s a community where students feel safe, valued, and supported, much like they do in their homes.

From personalised attention to nurturing relationships with teachers and peers, we create a space where every child can grow, explore, and thrive, knowing they are part of a family that cares deeply about their well-being and success.

PARENT-TO-SCHOOL CONNECT

Parents aren’t disconnected from their children’s academic progress. We have dedicated parent-to-school processes in place that put them in the passenger seat of the kids’ school life, keeping them in touch with what and how their child is doing, what they’re learning, what they excel in, and where they lack.

BOARDING LIFE

Boarding at our school is like having the best of both worlds. It’s where you get to live, learn, and have fun with friends - while still feeling totally at home. Our boarders enjoy cosy rooms and great meals. And plenty of activities to keep things exciting. From study time to movie nights and weekend adventures, there’s always something happening. It’s a chance to be independent, make lasting memories and be part of a close-knit, supportive community. Our boarding houses truly feel like a second home.

STUDENT WELL-BEING

Here at Taurian, we believe in whole child development. Our goal is to ensure that students have the skills, health, and mindset required for success at school and beyond, including the capacity to work towards their well-being and experience an optimal quality of life.

At Taurian, we do this in a variety of ways. From 24/7 security to personalised nutrition programs and a state-of-the-art infirmary, our aim is to make Taurian a healthy and habitable place for all our students.

THIS IS THE PLACE THAT HAS A LOT TO OFFER

Our beautiful campus, laid on 50 idyllic acres, is a haven where students learn, discover, and thrive both in and outside the classroom.

Covered by a green carpet of verdant grass, crisscrossed by walking paths, and dotted by rich flora, it is a place where we feel connected, inspired, and welcome. And so will your child

Across our flowing campus are academic blocks, studios and stages where art is made and displayed, and athletic arenas where Taurians compete for victory.

There are as many spaces for quiet introspection as there are for congregations.

Some buildings have been here since Taurian's earliest days. At the same time, some have been added as part of our commitment to continuous growth.

All are designed to help students meet their complete potential.

OUTDOOR CLASSROOMS

Combining our Nature's Classroom and Environmental Consciousness philosophies, our outdoor classrooms allow students to examine the complex connections between nature and culture while providing students with the opportunity to learn through applied and experiential education. Through place-based history, literature, and science curricula, students get to engage directly with the content they are learning.

NATURE TRAILS

From the steep hikes up verdant hills to the gorgeous views of the expansively green campus, walking, hiking, and strolling on Taurian's property never disappoints. As a biodiversity hotspot and home to unique geologic features, our trails are a world of wonders.

MAKERSPACES

We know that to practice your chosen art, you need to be in the right state of mind and place. We take care of the latter by providing students with dedicated, state-of-the-art makerspaces. Equipped with versatile tools and materials, this space invites young creators to experiment, craft, and express their unique artistic perspectives.

COMMUNITY SPACES

Community gathering spaces at Taurian World School are the heart of our campus life, designed to bring students and faculty together. These open, welcoming spaces encourage interaction, collaboration, and the exchange of ideas, strengthening the sense of community at our school. It's where students can relax, share, and grow together, truly enhancing their overall educational experience.

QUIET ZONES

Self-reflection and efforts to encourage our students to practice becoming more centred individuals exemplify Taurian's mission. Quiet zones like the ones we've created provide opportunities for students to take ownership of their ability to regulate emotions, a lifelong skill to help them succeed. These places are also great for focused studying and learning.

TECHNOLOGY HUBS

Leading edge and dynamic technology at Taurian is integrated to the advantage of students and selected for its appropriateness rather than trendiness. It is then integrated throughout the campus and curriculum, providing a unified platform that allows students and teachers to connect and learn seamlessly.

PERFORMANCE SPACE

Artistic expression at Taurian is not limited to instructional lessons. Equipped with state-of-the-art lighting and sound, we have multifunctional performance areas where students can showcase their skills in drama, music, and various other performing acts, helping them build their creativity confidently.

INDOOR GARDENS

Our indoor gardens are serene oases that blend nature with nurturing. These green spaces are integrated throughout our educational environment, providing students with a peaceful retreat to reflect, rejuvenate, and engage with the natural world. They serve not only as beautiful visual elements but also as practical pauses from a hectic school or exam day.

THIS IS THE PLACE TO FORM NATURAL CONNECTIONS

With nature and with yourself.

Taurian is *Gorgeous*

We live and learn on an X-acre campus.

If you've been to Ranchi, you understand just how inspiring and gentle it can be.

We are a little on the outskirts, but we are not isolated. We have playing fields for sports and acres of trails for biking, hiking, camping, bird-watching, horse-riding, and, most importantly, learning and thinking.

Carpeted in an almost perennial cover of green, the Taurian residents share the campus with different species, both flora and fauna, who grace us with their presence throughout the year.

THIS IS WHO YOU'LL BE INSPIRED FROM

The Helping Hands That Guide Young Minds

Behind our students' success—years ago and today—are faculty members who supported, encouraged, pushed, informed, nudged, and inspired. They led and led by example, in and out of the classroom.

As a Taurian, you will be among a wide array of talented teachers who will know you well. This will challenge you, and with their guidance, you will challenge yourself. Interaction between a teacher and pupil is a key part of a student's growth at Taurian.

Come to Taurian, and meet your mentors!

TANIYA GHOSH

“ Our curriculum at Taurian World School seamlessly integrates academics with life skills, truly preparing our students for the future. We focus on fostering critical thinking and problem-solving abilities, ensuring each child is equipped to navigate the complexities of tomorrow's world. ”

RICHA CHOUDHARY

“ We take pride in our holistic approach, nurturing not just academic excellence but also emotional and social development. At Taurian, we create a supportive environment where every student can thrive, develop interpersonal skills, and gain the confidence to succeed in diverse settings. ”

SONIYA TIWARI

“ Values and ethics are woven into our curriculum, shaping students into well-rounded individuals who can make a positive impact. We emphasize respect, responsibility, and community service, encouraging our students to contribute meaningfully to society and to grow as principled leaders. ”

SAI SATISH M Y S

“ Through our values-driven curriculum, students develop into well-rounded individuals with a strong sense of responsibility, respect, and social awareness. We nurture their growth into principled leaders, equipped to make a lasting, positive impact. ”

THIS IS A PLACE TO DO MORE

With our co-curricular programs, we at Taurian supplement and fortify academic learning with a host of activities, designed to help our students harness their character's most unique traits, allowing them to discover new areas of interest and embrace a new self – more curious, more able, and more capable.

THIS IS HOW YOU BECOME A PART OF OUR JOURNEY

Breaking Down the Steps to a New Future

 Checking of age criteria	 Admission form submission
 School tour/ Visit (optional)	 Offer letter with details about admission
 Registration	 Payment of fees
 Admission test/Entrance (if applicable)	 Submission health forms and other required admission documents
 Interaction with academic coordinator/Pastoral care/ Special head	 Hostel & boarding confirmation (if applicable)
 Interaction of special educator (if needed)	 Orientation for parents & students
 Interaction with principal	 Commencement of classes
 Selection for admission	

“

Start your best chapter at Taurian- where tomorrow is written by you.

”
